LinkedIn: rishab-saini

GitHub: rishabsaini31-maker — Portfolio: portfolio

Full Stack Developer with experience building SaaS platforms, e-commerce applications, and mobile solutions. Skilled in React, Next.js, Node.js, PostgreSQL, and modern web technologies. Passionate about creating scalable business software, solving real-world problems, and leveraging AI-powered tools to accelerate product development.

Education

G H Rasoni International Skill Tech University, Pune, India Bachelor of Engineering in Computer Science
Nov 2025 – June 2029

Experience

Full Stack Developer May 2025 – Present Freelance / Contract-Based Projects Remote

- Delivered multiple full-stack web and mobile applications with production deployment.
- Built scalable applications using Next.js, React, Node.js, PostgreSQL, and modern web technologies.
- Designed role-based systems, dashboards, billing solutions, and real-time business workflows.

Projects

SCS Inventory SaaS – Inventory Billing Platform [Live]

- Developed a SaaS platform for inventory management, billing, customer management, and analytics.
- Implemented secure authentication, role-based access control, and multi-user workflows.
- Built dashboards for sales tracking, profit analysis, inventory monitoring, and financial reporting.
- Enabled PDF invoice generation, stock management, and customer insights.

OrgoBloom – Fertilizer E-Commerce Platform [Live]

- Developed a modern e-commerce platform for fertilizer and agricultural product sales.
- Built product catalog, shopping cart, checkout workflow, and order management features.
- Implemented user authentication and responsive mobile-first user experience.
- Designed scalable architecture for future business growth.

RK Pure Veg – Hotel Food Ordering Android Application [Play Store]

- Developed an Android application for restaurant food ordering and delivery operations.
- Implemented menu browsing, order placement, order tracking, and customer management features.
- Improved customer experience through a mobile-first ordering workflow.
- Published and maintained the application on Google Play Store.
